

DISTRICT 16 COMPETITION

On 9/10/2026 the Board voted to add this under the Addendum section of the by-Laws:

"For events held after Labor Day, District 16 will waive the District Membership requirement to allow participation in sanctioned events. AMA Membership is still required and only full annual membership in District 16 will earn any points. Any Annual Membership paid after Labor day will also include the annual District Membership for the following year at the current membership amount."

What that means is for the period of the season between Labor Day and the Final Event of the year you will be allowed to enter District events without the required Membership or "1-day Pass". **You must still have a current AMA Membership in good standing or AMA "1-day Pass"**. Because we encourage you to join District 16 if you join between Labor Day and the end of the season, your Membership will extend to the end of the following season. **Remember that only full D-16 Members earn any Championship Points.**
