III. Advancement

Participation in or advancement to a higher class in any AMA or non-AMA Off-Road meet by any rider will result in permanent advancement to that higher class in all AMA sanctioned Off-Road competition. Off-Road racers will ride all off-road meets in the highest classification earned. Off-Road includes Enduro, Hare Scrambles, Desert Scrambles, Grand Prix, Cross Country, Hare and Hound and like type meets.

Off--Road National Advancement System

- 1. Riders will receive advancement points for participation in all AMA-sanctioned enduro, hare scrambles, desert scrambles, cross country, grand prix, hare and hound (or any similar

activity) meets. AMA riders advance from one classification to the next through their Successful participation in AMA-sanctioned meets.

2. Advancement points will be calculated from Dec. 1st to Nov. 30th each year. Riders will be advanced effective Jan. 1st of the following year.
3. Riders between the ages of 12 and 15 on Nov. 30th riding the B classification shall not be forced into the A classification regardless of how many B races or advancement points he/she has. Riders in this age group may advance based on their own ability/competence.
4. In series' that roll over into a new year, riders must begin the series in the classification they will compete in during the new year. A rider can't continue racing their classification from the previous year if they are no longer eligible as of Jan. 1.

Off--Road Performance Value (ORPV)

Note: Non-District riders are NOT removed when calculating ORPV.

To be considered for advancement a rider must have a minimum of six points-paying finishes within the rider's classification. Race results that have a DNF, DNS overall finish or zero advancement points will not be used for calculating a rider's advancement ORPV.

“B” Classification Advancement

All B riders carrying an ORPV of 15 or higher at yearend will be advanced to the A classification.

“C” Classification Advancement

All C riders carrying an ORPV of 15 or higher at year-end will be advanced to the B classification.

The following criteria are to be used when determining a rider's eligibility for the C classification:

- (1) No rider is to be classified as a C rider if that rider had an ORPV of 15 or higher the previous year in the C classification.
 - (2) No rider is to be classified as a C rider if that rider has ever been classified as an A rider.
 - (3) No rider is to be classified as a C rider if that rider is receiving or has ever received any type of OEM factory support in any classification. (Excluding OEM contingency and trackside support)
 - (4) If a rider doesn't meet any of the above criteria, they may not participate in the C classification if they have raced C the previous two calendar years and have an ORPV of 11.0 or higher.
9. Riders who race in MX, Enduro, Hare Scrambles, Hare & Hound and have different classifications in each type of racing may not vary more than one level.

***Example:** A rider has 18 B classification entries. He earns 256 points combined in 15 of those entries and no points in the other three. To calculate the ORPV the total points earned (256) are divided by the total number of classification entries in which points were earned (15). $256 \div 15 = \text{ORPV of } 17.06$. The rider's ORPV of 17.06 exceeds the 15 point cutoff and he/she is advanced to the A classification.
